BREAK TIME!

Mapping Barriers to Student Success

In your district teams...

Brainstorm and map barriers that stand in the way of students successfully enrolling in college. The larger the barrier, the larger and closer it should be to the center.

Small barrier

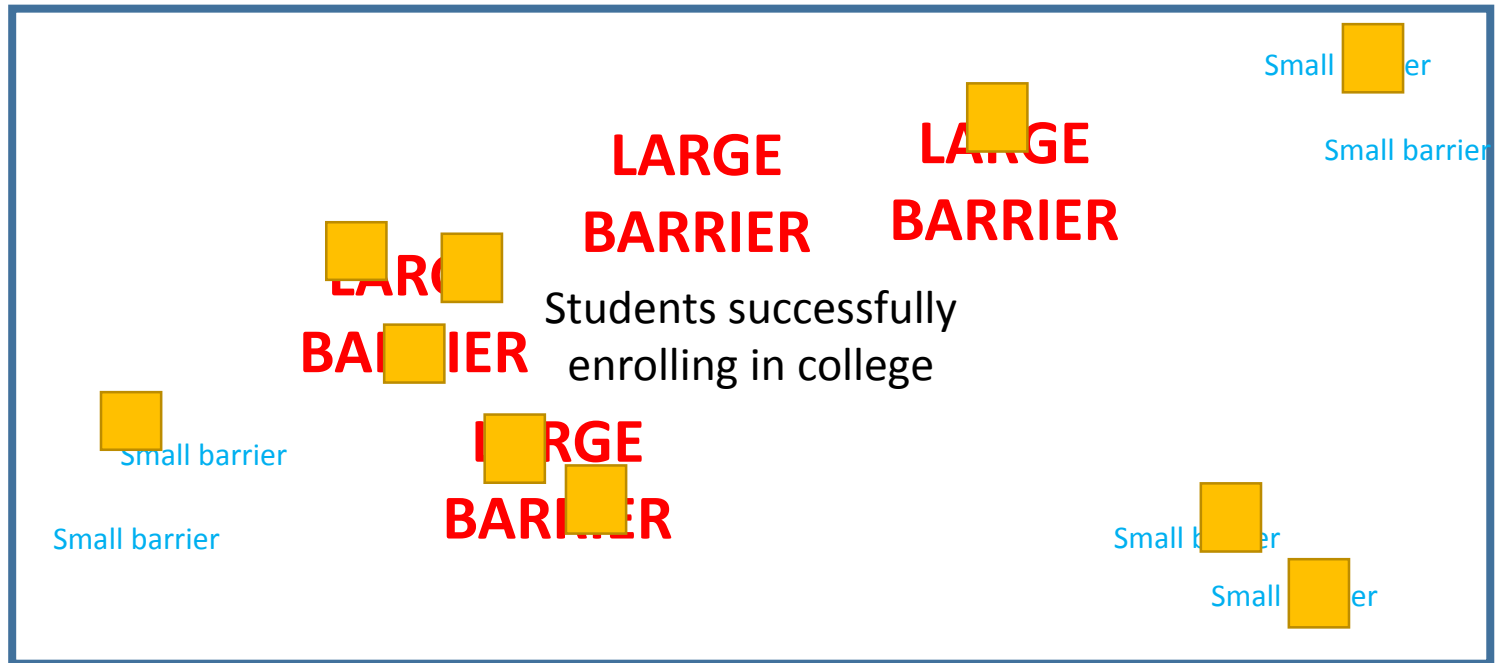

**LARGE
BARRIER** Students successfully
enrolling in college

Gallery Walk

- **5 minutes**-Walk around and make observations about what you are seeing.
 - Are there common barriers? Are they given the same importance across groups?
- **5 Minutes**-Share out observations
- **5 Minutes**- Student observations and comments
 - Are the barriers perceived by students the same as the barriers perceived by school and district staff?

In your district teams...

On stick notes, write out the projects, activities, actions you are taking to mitigate and overcome those barriers. Place the sticky on the appropriate barrier.

Reflect on...

- What barriers do not have associated projects/initiatives/strategies?
- Do you feel the current strategies are effective?
- What question do you have for students about the effectiveness of these strategies or potential strategies?
- What additional training or support would you like from the HSBLI planning team to tackle these barriers?
