

The Road Map Project
Family Engagement Institute

Auburn School District

WHAT WE LEARNED...

- Any Moment Can Be a Transformational Moment
 - Every interaction is an opportunity to have a positive or negative impact on that situation
- Being Intentional in Authentic Family Engagement
 - The difference is made through engagement, not in involvement. Parents and students are telling us this is what they need.
- We Need to Optimize and Prioritize our Efforts
 - We have to meet people where they are; where you are at is where you begin and where you begin is a good place

WHAT'S NEXT...

- Implement the Cycle of Engagement in the work that we are doing
- Seeking and Connecting with the voices that we are not hearing
- Identify and begin the work of addressing the systemic barriers that perpetuate institutional racism in our district
- QUESTIONS THAT REMAIN
 - How do we become culturally responsible?
 - How to we address the urgency while respecting where we are in their journey.
