

The Road Map Project
Family Engagement Institute

**FEDERAL WAY
PUBLIC SCHOOLS**

Each Scholar:
A voice. A dream.
A **BRIGHT** future.

WHAT WE LEARNED...

- Compulsory Public Education was built on a foundation of embedded Institutional Racism and continues to perpetuate inequities.
- Evaluate purpose of family engagement and move from activities to relationship building and connections with families.
- There is great value in putting the faces of our diverse community in front of our scholars. We must also value and train our current staff.

WHAT'S NEXT...

- This group debriefs and convenes with district leadership in regards key learnings.
- Create, model, and sustain intentional, on-going conversations at all levels throughout the Federal Way community.

QUESTIONS THAT REMAIN...

- How do we create authentic urgency and support for all staff (not just one more thing but real relationship partnerships).
